The board of directors of the Company (the “**Board**” or the “**Directors**”) wishes to inform the shareholders of the Company (the “**Shareholders**”) and potential investors that, based on the preliminary review of the latest available unaudited consolidated management accounts of the Group for the six months ended 30 June 2025 (the “**Period**”), the Group is expected to record a loss after taxation of not more than RMB168 million during the Period (the “**Result**”) as compared with a profit after taxation of RMB60.8 million for the six months ended 30 June 2024. The profit or loss for the Period attributable to the discontinued operations and the continuing operations is as follows:

- (i) Discontinued operations: a loss after taxation of not more than RMB200 million for the Period; and
- (ii) Continuing operations: a profit after taxation of not more than RMB32 million for the Period.

The increase in the Group's loss after taxation was mainly due to the combined effect of the following factors:

- (i) the average coal selling price decreased during the Period as compared with the same period in 2024;
- (ii) raw coal production volume of the discontinued operations decreased from 3.67 million tonne for the six months ended 30 June 2024 to 2.07 million tonne during the Period; and
- (iii) raw coal production volume of the continuing operations increased from 0.76 million tonne for the six months ended 30 June 2024 to 2.05 million tonne during the Period.

The Group's loss after taxation was also attributable to the currency depreciation of Indonesian Rupiah against Renminbi and United States Dollars that resulted in the foreign exchange loss of approximately RMB70.8 million arising on the settlement of monetary items, and on the translation of monetary items.

As at the date of this announcement, the Company is still in the process of finalising the interim results of the Group for the Period.
